Our Profile

"ENVITECH® based in Vadodra, India, is a team of experts offering an entire line of products and services in Air Pollution Control Equipment and Wastewater Treatment Technologies for all type of industries or any other sources. We provide turnkey solutions in some of the most challenging environments across the world. We have installed many high performing integrated systems for wide range of applications."

Vision

"We believe in concept of building Wastewater Treatment technologies and Air Pollution Control Measures with interlocking equipment and well integrated services than isolated and independent systems."

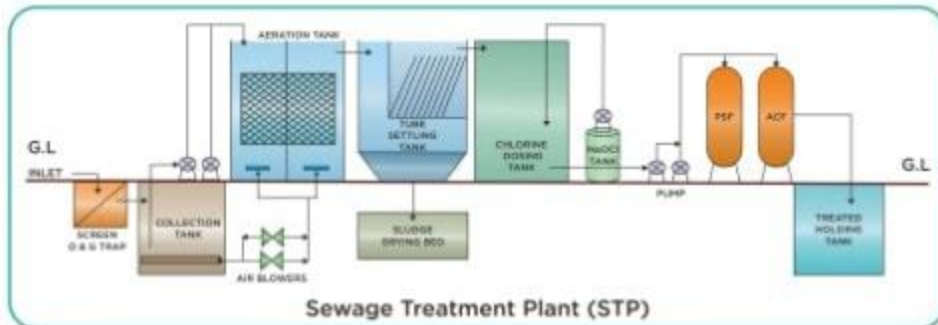

Projects

Effluent Treatment Plant (ETP)

Design, Erection and Commissioning
Filtration Systems
Aeration System
Dosing Systems
Chemicals and Equipment

Sewage Treatment Plant (STP)
